Welcome

EaseUS Key Finder is an easy-to-use and effective utility with a simple interface. It helps find the Keys of the registered Windows OS as well as the applications. Also, it allows to find and manage the passwords of Network, WLAN, and other Windows credentials.

Activation

The trial version will show you all the items it finds. But to view or save the digital assets, please purchase a license code. If you already have a license, click **Upgrade** in the right corner to enter the license.

Register Key

The register keys of Windows and some applications can be found in this part.

Windows

The software will list the Windows OS version as well as the product key. The product key can be saved into a PDF file, or be printed.
